2

Social responsibility

Our company passed the certification of Sedex in 2017. SMETA is one of the most widely used social audit procedures in the world. It provides a globally-recognised way to assess responsible supply chain activities, including labour rights, health & safety, the environment and business ethics. Currently in the process of applying for SA8000 Standard is the leading social certification standard for factories and organizations across the globe. It was established by Social Accountability International in 1997 as a multi-stakeholder initiative

3

Quality Control

To provide our customer good quality products is our basic mission. A professional team always keeps the quality control from the beainnina to the end
