Mould

Product Inspection Standard Setting

Free Product Inspection Standard Setting:
In addition to the usual quantification of product physical properties and appearance standards, we will add REACH, RoHS, FDA, CA-65, or CFC Free to the standards according to customer needs.

Free Mould Opening:
Large order quantity with mould cost free.

Free 3D Design:
Finehope help customer design the desired product or modify the design for free.

Free DFM/A Report:
Finehope will show details and solutions of manufacturability and assemblability through PPT to help customers reduce trouble.

2002 年，日本经济新闻 对日本 100 家大企业进行了调查，调查的主题是“你认为 20 年后日本企业最大的挑战是什么？”调查的结果显示，有 70% 的企业认为最大的挑战是“人才短缺”。

人才短缺已经成为日本企业面临的一个严重问题。这主要是由于日本企业长期以来实行的终身雇佣制和年功序列制，导致企业难以吸引和留住年轻人才。此外，日本企业还面临着人口老龄化的问题，这也会导致人才短缺。

为了应对人才短缺的问题，日本企业开始采取一些新的措施。例如，一些企业开始实行弹性雇佣制，即根据企业的需要来雇佣员工，而不是实行终身雇佣制。此外，一些企业还开始实行轮岗制，让员工在不同的部门之间轮岗，以提高员工的综合素质。

然而，人才短缺的问题仍然没有得到根本性的解决。日本企业需要进一步改革其雇佣制度，以吸引更多的年轻人才。同时，政府也需要采取一些措施，如提供职业培训等，以帮助年轻人提高技能，从而缓解人才短缺的问题。

人才短缺已经成为日本企业面临的一个严重问题。这主要是由于日本企业长期以来实行的终身雇佣制和年功序列制，导致企业难以吸引和留住年轻人才。此外，日本企业还面临着人口老龄化的问题，这也会导致人才短缺。

Customer list

1. What are the main products of the company?

The company is a leading manufacturer of automotive components, specializing in the production of engine parts, transmission parts, and other mechanical components. The company has a long history of cooperation with major automotive manufacturers, including CAT, FIAT, TVH, STIGA, and others. The company's products are used in a wide range of vehicles, from cars to trucks and heavy machinery. The company's main products include engine parts, transmission parts, and other mechanical components.

2. What are the main markets of the company?

- 1) The company's main markets are in the automotive industry, including cars, trucks, and heavy machinery.
- 2) The company's main markets are in the automotive industry, including cars, trucks, and heavy machinery.
- 3) The company's main markets are in the automotive industry, including cars, trucks, and heavy machinery.
- 4) The company's main markets are in the automotive industry, including cars, trucks, and heavy machinery.
- 5) The company's main markets are in the automotive industry, including cars, trucks, and heavy machinery.
- 6) The company's main markets are in the automotive industry, including cars, trucks, and heavy machinery.
- 7) The company's main markets are in the automotive industry, including cars, trucks, and heavy machinery.

3. What are the main products of the company?

- 1) The company's main products are engine parts, transmission parts, and other mechanical components.
- 2) The company's main products are engine parts, transmission parts, and other mechanical components.
- 3) The company's main products are engine parts, transmission parts, and other mechanical components.
- 4) The company's main products are engine parts, transmission parts, and other mechanical components.

Production Device

KRAUSS MAFFEI

Finehope has successively introduced many of the world's most advanced German KraussMaffei high-pressure injection machines since 2010.

Reaction Injection Molding (RIM)
High Pressure Machine
KRAUSS MAFFEI
Made in Germany!

Self-invented fully automatic production line

Finehope has independently developed a number of fully automatic P-U injection production lines since 2010. These production lines reduce production costs and meet customer delivery requirements.

Welding Robots

Since 2016, Finehope has continued to purchase welding robots and automatic fixture turntables for welding metal parts. The independent processing of accessories saves the waiting time and procurement cost of outsourcing processing.

CNC Machine

Finehope has continued to purchase CNC equipment since 2016. CNC (Computer Numerically Controlled) machining is a manufacturing process in which pre-programmed computer software dictates the movement of factory tools and machinery. Using this type of machine versus manual machining can result in improved accuracy, increased production speeds, enhanced safety, increased efficiency and most importantly, help customers save costs and improve product quality.

Mould Release Agent Painting Robot

Since 2019, Finehope has purchased robots for spraying water-based release agents to improve the working environment, improve spraying quality and material utilization, and reduce labor costs.

3D printer

Finehope started to purchase 3D printers in 2015. 3D printing can realize rapid proofing of new product prototypes and templates for resin molds, and can also be used for faster and cheaper small batch production.
