19 YEARS PRODUCTION EXPERIENCE ON PU MOLDED FOAM PRODUCTS

WHY CHOOSE US

01

The office workshop area is 10,000 square meters

02

Annual output: 6000 tons, Annual sales: 130 million

03

Large-scale equipment: 32 sets

Global polyurethane PU customization

19 YEARS PRODUCTION EXPERIENCE ON PU MOLDED FOAM PRODUCTS

CUSTOMER VISIT

QUESTION

1. What is the main purpose of the Finehope project?
Finehope is a project that aims to create a new type of PU (Polyurethane) that is more sustainable and eco-friendly. The project is led by CAT, FIAT, TVH, and STIGA, and involves 12 other companies. The main purpose of the project is to develop a new type of PU that is more sustainable and eco-friendly, and to reduce the environmental impact of the PU industry.

2. Finehope is a project that aims to create a new type of PU (Polyurethane) that is more sustainable and eco-friendly. The project is led by CAT, FIAT, TVH, and STIGA, and involves 12 other companies. The main purpose of the project is to develop a new type of PU that is more sustainable and eco-friendly, and to reduce the environmental impact of the PU industry.
- 1) The project is led by CAT, FIAT, TVH, and STIGA, and involves 12 other companies.
 - 2) The project is led by CAT, FIAT, TVH, and STIGA, and involves 12 other companies.
 - 3) Finehope is a project that aims to create a new type of PU (Polyurethane) that is more sustainable and eco-friendly. The project is led by CAT, FIAT, TVH, and STIGA, and involves 12 other companies. The main purpose of the project is to develop a new type of PU that is more sustainable and eco-friendly, and to reduce the environmental impact of the PU industry.
 - 4) The project is led by CAT, FIAT, TVH, and STIGA, and involves 12 other companies.
 - 5) The project is led by CAT, FIAT, TVH, and STIGA, and involves 12 other companies.
 - 6) PU (Polyurethane) is a type of plastic that is used in a wide range of applications, from automotive to construction.
 - 7) Finehope is a project that aims to create a new type of PU (Polyurethane) that is more sustainable and eco-friendly. The project is led by CAT, FIAT, TVH, and STIGA, and involves 12 other companies. The main purpose of the project is to develop a new type of PU that is more sustainable and eco-friendly, and to reduce the environmental impact of the PU industry.

3. What are the main challenges of the Finehope project?
- 1) The project is led by CAT, FIAT, TVH, and STIGA, and involves 12 other companies.
 - 2) Finehope is a project that aims to create a new type of PU (Polyurethane) that is more sustainable and eco-friendly. The project is led by CAT, FIAT, TVH, and STIGA, and involves 12 other companies. The main purpose of the project is to develop a new type of PU that is more sustainable and eco-friendly, and to reduce the environmental impact of the PU industry.
