Mould

3D Design

Product Inspection  
Standard Setting

**Free Product Inspection Standard Setting:**  
In addition to the usual quantification of p-product physical properties and appearance standards, we will add REACH, RoHS, FDA, CA-65, or CFC Free to the standards according to customer needs.

**Free Mould Opening:**  
Large order quantity with mould cost free.

**Free 3D Design:**  
Finehope help customer design the desired product or modify the design for free.

**Free DFM/A Report:**  
Finehope will show details and solutions of manufacturability and assemblability through PPT to help customers reduce trouble.

单位: 个/PU  
 MOQ:100  
 尺寸: 248\*78\*74 可定制各种尺寸  
 材质: 聚氨酯  
 交期: T/T 预付 30% 尾款 70%  
 包装: 定制各种包装方案  
 售后服务: 提供详细的使用说明和维修指南  
 质保: 30天

自2003年起，FINEHOPE 通过了 ISO9001 质量管理体系认证。

**IATF16949:**  
 自2021年起，FINEHOPE 通过了 IATF16949 质量管理体系认证。  
 2007年，FINEHOPE 通过了 Caterpillar 的 IATF16949 认证。  
 SPC、MSA、FMEA、APQP、PPAP 5 项工具的应用。  
 Caterpillar 认证。

## Production Device

### KRAUSS MAFFEI

Finehope has successively introduced many of the world's most advanced German KraussMaffei high-pressure injection machines since 2010.

Reaction Injection Molding (RIM)  
High Pressure Machine  
KRAUSS MAFFEI  
Made in Germany!

### Self-invented fully automatic production line

Finehope has independently developed a number of fully automatic P-U injection production lines since 2010. These production lines reduce production costs and meet customer delivery requirements.

### Welding Robots

Since 2016, Finehope has continued to purchase welding robots and automatic fixture turntables for welding metal parts. The independent processing of accessories saves the waiting time and procurement cost of outsourcing processing.

### CNC Machine

Finehope has continued to purchase CNC equipment since 2016. CNC (Computer Numerically Controlled) machining is a manufacturing process in which pre-programmed computer software dictates the movement of factory tools and machinery. Using this type of machine versus manual machining can result in improved accuracy, increased production speeds, enhanced safety, increased efficiency and most importantly, help customers save costs and improve product quality.

### Mould Release Agent Painting Robot

Since 2019, Finehope has purchased robots for spraying water-based release agents to improve the working environment, improve spraying quality and material utilization, and reduce labor costs.

### 3D printer

Finehope started to purchase 3D printers in 2015. 3D printing can realize rapid proofing of new product prototypes and templates for resin molds, and can also be used for faster and cheaper small batch production.
