Product Inspection
Standard Setting

Free Product Inspection Standard Setting:
In addition to the usual quantification of p-product physical properties and appearance standards, we will add REACH, RoHS, FDA, CA-65, or CFC Free to the standards according to customer needs.

Free Mould Opening:
Large order quantity with mould cost free.

Free 3D Design:
Finehope help customer design the desired product or modify the design for free.

Free DFM/A Report:
Finehope will show details and solutions of manufacturability and assemblability through PPT to help customers reduce trouble.

尺寸: 248*78*74mm
 MOQ:100
 重量:248*78*74mm
 材料:PP
 颜色:白色 / T 30 70
 表面处理:无
 包装: 248*78*74mm

About us

本公司自成立以來，一直秉承「誠信、專業、服務」的宗旨，致力於為廣大客戶提供優質、可靠的產品及服務。我們擁有先進的生產設備、完善的质量管理体系及一支經驗豐富的技術團隊，確保每一批產品都能達到國際標準。歡迎各界人士垂詢、參觀及訂購，我們將竭誠為您服務。

2007 年，本公司通過了 ISO9001 國際質量認證，並獲得了 TUV 認證。同時，我們也是 Alibaba Verified Supplier 認證供應商，這充分證明了我們在國際市場上的信譽和實力。我們將繼續努力，不斷提升產品質量及服務水平，為客戶創造更多價值。

Production Device

KRAUSS MAFFEI

Finehope has successively introduced many of the world's most advanced German KraussMaffei high-pressure injection machines since 2010.

Reaction Injection Molding (RIM)
High Pressure Machine
KRAUSS MAFFEI
Made in Germany!

Self-invented fully automatic production line

Finehope has independently developed a number of fully automatic P-U injection production lines since 2010. These production lines reduce production costs and meet customer delivery requirements.

Welding Robots

Since 2016, Finehope has continued to purchase welding robots and automatic fixture turntables for welding metal parts. The independent processing of accessories saves the waiting time and procurement cost of outsourcing processing.

CNC Machine

Finehope has continued to purchase CNC equipment since 2016. CNC (Computer Numerically Controlled) machining is a manufacturing process in which pre-programmed computer software dictates the movement of factory tools and machinery. Using this type of machine versus manual machining can result in improved accuracy, increased production speeds, enhanced safety, increased efficiency and most importantly, help customers save costs and improve product quality.

Mould Release Agent Painting Robot

Since 2019, Finehope has purchased robots for spraying water-based release agents to improve the working environment, improve spraying quality and material utilization, and reduce labor costs.

3D printer

Finehope started to purchase 3D printers in 2015. 3D printing can realize rapid proofing of new product prototypes and templates for resin molds, and can also be used for faster and cheaper small batch production.
