Finehope

This product is customized for
the customer,not for sale

Free Product Inspection Standard Setting:
In addition to the usual quantification of p-product physical properties and appearance standards, we will add REACH, RoHS, FDA, CA-65, or CFC Free to the standards according to customer needs.

Free Mould Opening:
Large order quantity with mould cost free.

Free 3D Design:
Finehope help customer design the desired product or modify the design for free.

Free DFM/A Report:
Finehope will show details and solutions of manufacturability and assemblability through PPT to help customers reduce trouble.

单位: PU
 MOQ:100
 尺寸: 248*78*74mm, 重量
 颜色: 黑色 白色
 交货期: T/T 预付款 30%, 尾款 70%
 包装: 散装 或 纸箱 或 托盘
 付款方式: 电汇, 信用证, 银行承兑汇票 或 第三方支付
 交货地点: 工厂 或 300

我们于 2003 年通过了 ISO 9001 质量管理体系认证。

IATF16949 认证:

我们于 2021 年通过了 IATF16949 汽车行业质量管理体系认证。

2007 年 Finehope 通过了 Caterpillar 的 SPC, MSA, FMEA, APQP 和 PPAP 5 级认证。

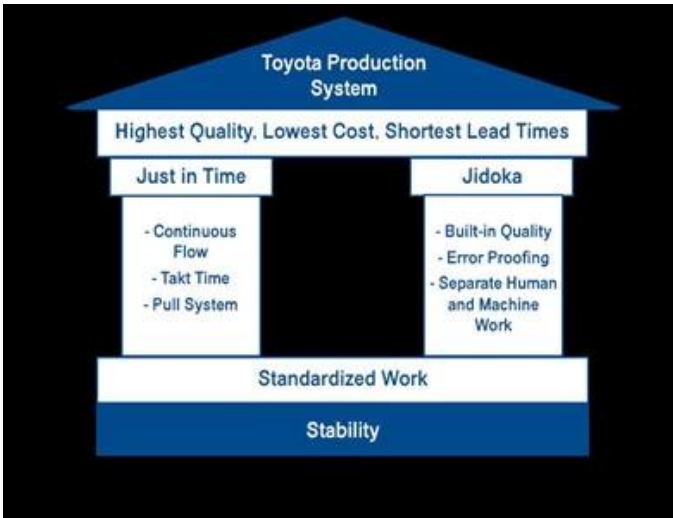

Our Advantages

PU is a key component of Finehope's PU. We are committed to providing high-quality, reliable products to our customers. Our advanced manufacturing processes and strict quality control ensure that every unit of PU meets the highest standards. We offer a wide range of PU products, including various grades and specifications, to meet the diverse needs of our clients. Our experienced R&D team is dedicated to developing innovative solutions and improving our products to stay at the forefront of the market. We are proud to be a Fortune 500 company, a testament to our commitment to excellence and customer satisfaction.

Finehope's PU products are designed for optimal performance and durability. We utilize state-of-the-art technology in our manufacturing processes, ensuring precision and consistency in every batch. Our advanced machinery and robotic systems streamline production, resulting in faster turnaround times and reduced operational costs. We are committed to environmental sustainability and safety, adhering to all relevant regulations and industry standards. Our comprehensive customer support and technical assistance ensure that our clients receive the best possible service. We are confident that our high-quality PU products will meet and exceed your expectations.

Finehope's production process is inspired by the Toyota Production System (TPS), which emphasizes efficiency and quality. We have adopted key TPS principles, such as Just in Time (JIT) and Jidoka, to optimize our manufacturing processes. Our JIT approach ensures that materials are only produced or delivered when needed, reducing inventory costs and improving cash flow. Jidoka, or built-in quality, allows us to detect and address defects immediately, preventing waste and ensuring high product quality. We also implement standardized work procedures to maintain consistency and reduce variability. Our focus on stability provides a solid foundation for our operations, ensuring reliable production and consistent performance. We are committed to continuous improvement and innovation, striving to achieve the highest quality and lowest cost for our customers.

Our S.M.A.R.T. goal formula is a key element of our strategic planning. It helps us set clear, achievable objectives that drive our business forward. By focusing on specific, measurable, attainable, relevant, and time-bound goals, we can track our progress and make data-driven decisions. This approach ensures that our resources are allocated effectively and that we stay on track to meet our long-term vision. We are committed to transparency and accountability, regularly reviewing our goals and adjusting our strategies as needed. Our S.M.A.R.T. formula is a testament to our commitment to excellence and our ability to achieve our goals.

Test Report No. 00201457201 Date: 20140723 Page 2/4
 Customer: CUSTOMER SERVICE DEPARTMENT

Test Result

No.	Test Item	Unit	Test Standard	Customer Requirement	Customer Sample (unit)	Customer Sample (unit)	
				1	2	Average	
1	Thickness	mm	ASTM D2014	1.5	1.5	1.5	1.5
2	Hardness	HRB	ASTM D2014	80	80	80	80
3	Specific Gravity	g/cm ³	ASTM D2014	0.95	0.95	0.95	0.95
4	Tensile Strength	MPa	ASTM D2014	15	15	15	15
5	Elongation	%	ASTM D2014	100	100	100	100
6	Impact	J/m ²	ASTM D2014	10	10	10	10
7	Compression	MPa	ASTM D2014	10	10	10	10
8	Resilience	%	ASTM D2014	10	10	10	10

FIG. 1. In order to make the strength of two steel rods can be compared, see the test specimen in the same thickness (about 8mm) and two rods in one side to do the tensile strength test comparison.
 2. For the specific gravity value in the above test result, it is the value of specimen with skin on one side, and the actual value of the whole sample.

Attachments missing 附件缺失	Affect product strength or influence the assembly 影响产品强度或影响装配		8	A	Staff negligence 作业人员疏忽	3	Make the operation standard book 制定作业指导书	Visual inspection 目视检测	4	96	Final inspection personnel do 100% full inspection for each bead with man 每个工人100%全检,并增加目视检测		8	2	2	32
Attachment error 附件错误	Influence assembly 影响装配		7	A	No mistake proofing fixture 夹具无防错	3	Make the operation standard book 制定作业指导书	Visual inspection 目视检测	6	126	● Increase the mistake proofing devices 增加防错装置 ● Inspection for final inspection tools 夹具点检		7	2	4	56
False welding 假焊	Lack of strength, affect the use of function 强度不足,影响使用功能		9	A	Current, voltage, welding angle, speed setting is not reasonable 电流、电压、焊接角度、速度设置不合理	4	● Welding process guidance making 制定焊接工艺指导书 ● Condition confirmation check 加工条件确认 ● Confirm the failure test on a regular basis 定期开展失效试验	Destructive testing 破坏性试验	8	288	After the procedure is set up to confirm the processing conditions, the execution and marking of the failure test is performed. 工序设置完成后确认		9	3	4	108

Production Device

KRAUSS MAFFEI

Finehope has successively introduced many of the world's most advanced German KraussMaffei high-pressure injection machines since 2010.

Reaction Injection Molding (RIM) High Pressure Machine KRAUSS MAFFEI Made in Germany!

Self-invented fully automatic production line

Finehope has independently developed a number of fully automatic P-U injection production lines since 2010. These production lines reduce production costs and meet customer delivery requirements.

Welding Robots

Since 2016, Finehope has continued to purchase welding robots and automatic fixture turntables for welding metal parts. The independent processing of accessories saves the waiting time and procurement cost of outsourcing processing.

CNC Machine

Finehope has continued to purchase CNC equipment since 2016. CNC (Computer Numerically Controlled) machining is a manufacturing process in which pre-programmed computer software dictates the movement of factory tools and machinery. Using this type of machine versus manual machining can result in improved accuracy, increased production speeds, enhanced safety, increased efficiency and most importantly, help customers save costs and improve product quality.

Mould Release Agent Painting Robot

Since 2019, Finehope has purchased robots for spraying water-based release agents to improve the working environment, improve spraying quality and material utilization, and reduce labor costs.

3D printer

Finehope started to purchase 3D printers in 2015. 3D printing can realize rapid proofing of new product prototypes and templates for resin molds, and can also be used for faster and cheaper small batch production.
